To MEDA-USA

## LETTER OF APPRECIATION

The Moghamo Women's Cultural and Development Association (MOWOCUDA) hereby acknowledge having received the sum of 502,550 FRS as an advance for the MEDA poultry project at the Women's Empowerment Centre. We thank you all very immensely for your efforts to see us develop.

In face we tried to initiate the poultry project but had difficulties: logistics (no light), Bird Flu, inadequate funds to really get started, etc.

We complained to the President and were advised to initiate another project. The women have now undertaken to start a piggery project: building a pig fence, a kitchen and pit toilet for a worker to live in the centre and care for the pigs and the centre. The pigs will generate income and the manure will be used for farming.

We shall use local materials to build the pit toilet and the kitchen and undertake these projects ourselves.

Herewith I am sending you a Piggery project file. See below.

We shall be waiting to hear from you soonest.

Sincerely,

Mrs. Maggi Mbah Ndam  
National President  
MOWOCUDA
